Hello, I am Swastik, A full-stack software engineer with 3+ years of experience.

Me and my team-mates together have given 100s of frontend interviews. We know exactly what the interviewer looks for in a candidate. And we are here to tell you that secret.

This course doesn't make you learn specific interview questions, but teaches you how to approach them and how to see patterns in them.

After going through the entire video course, you will be able to think logically, see patterns, and design proper approach to solve a given interview question.
